

Kyle,

I wanted to say thank you for the opportunity to work for and with STG. I know that I am not that old in terms of general population, but to take a chance on someone with a bachelors degree in another field; I will always appreciate the chance I was given.

I also wanted to say how awesome it was that you took me out to lunch for my B-day and my last day. I have never had an employer care enough to know my birthday.

From a professional side, working at STG has been an amazing experience where I learned a ton of different skills. Being able to develop my web development & design skill while working with understand & patient mentors has been really awesome and I cannot thank you enough.

Best of luck to you, your company and everything else in your life!

-Tyler
